

Vector series of high vacuum pumps

 Vacuum and refrigeration specialists Javac have announced the launch of their impressive new range of high vacuum pumps.

The Vector series of pumps will reach 300 litres per minute and have been released with a three year warranty.

Javac's Vector series is continuously rated for industrial, heavy duty applications.

The Vector series of pumps will reach 300 litres per minute and come with a three year warranty.

The Vector range is the result of true Australian research and development practices. The series features many innovative

aspects of design which Javac says will fulfil users' expectations for high vacuum applications. Javac offers a guaranteed minimum 10 year part support on the Vector high vacuum pump series.
