

Aussie quality still stands out

JAVAC is a long standing Australian name, recognised for product excellence both nationally and internationally. Since JAVAC's inception in 1964, the company has led the way in technology and are still Australia's only manufacturing specialist in vacuum refrigeration products and process technology.

Dedicated to the future, JAVAC invests heavily in research and development and prides itself in maintaining and exceeding stringent quality standards. An ISO 9001:2000 certified organisation,

JAVAC is recognised for their exceptional standards; putting them at the forefront of this highly competitive market.

Remaining a family owned and operated

enterprise, founder Ron Davies initiated the manufacture of precision components and ultimately high vacuum pumps.

JAVAC has developed an impressive range of skills in high vacuum technology. With the ability to custom design and build complex vacuum and refrigerant equipment for laboratories and industry, JAVAC has the proficiency to offer customised solutions to suit very specific applications.

Continually striving to offer the highest quality and most innovative products, JAVAC are proud to announce the release of their Vector LD and RD series, the latest generation in high performance rotary vane vacuum pumps. For more information, please contact JAVAC on 1300 786 771 or visit their website: www.javac.com.au.

The Ultimate Tools for Air Conditioning

Turn-key solutions for your vacuum and refrigeration needs

Proudly Australian
since 1964

- ✓ Perfect for vehicle field servicing
- ✓ Vacuum pump, scale and manifold in a portable unit
- ✓ Safe and easy to transport

PCS-2

Portable Charging Station

- ✓ Four valve manifold
- ✓ Automatic evacuation and charge
- ✓ High capacity refrigerant recovery pump

ACS-R

Automated Charging Station

- ✓ Innovative design
- ✓ LCD vehicle select and printer
- ✓ Fully programmable change/recovery

Konfort

Automotive Charging Station
